NOTE.—The next number of this paper will be rich in comment on recent archery meetings, and in reports of excursions, routes, correspondence, and other matters of interest to wheelmen. It will be a good investment to send \$2.50 for a year's subscription, beginning at any time.

ADVERTISEMENTS

ARCHER'S "DRAW AND LOOSE"

GIVES SPLENDID SATISFACTION.—A Handle makes the Draw much easier; Fingers never touch the string. A Hair Trigger to loose instantly and smoothly. The Relief to the Fingers and the Ease of Draw gives Accuracy to the Aim. Price \$4. LIBERAL DISCOUNT TO CLUBS OF SIX OR MORE. Send for circular.

Address, **S. H. FRENCH,**
Metropolitan Hotel, N. Y. City.

PHOTOGRAPHS

OF the wheelmen at Newport. Fine, clear, large; they show the greatest number of bicyclers ever together in this country, including many clubs and representative wheelmen. Every club should have one, and many L.A.W. members will. No one who was at Newport at the time can fail to want one.

Prices, sent post-paid to any address, according to size and style, \$2.50, \$2.00, \$1.00. Address

40 Water Street, Boston.

PROVIDENCE B1. CLUB, PROVIDENCE, R.I.

OPENING OF THE NEW 4-LAP

Bicycle Race Track.

This track, believed to be the finest Cinder Path in the country, will be opened

WEDNESDAY, October 5th, 1880,
when a series of amateur bicycle races will be given as follows:—

ONE-MILE race, for a \$100 gold medal and the Amateur Mile Championship of America;

TWO-MILE race, for prizes, value, \$75;

HALF-MILE race, for prizes, value \$60.

Detailed particulars in the next number of the **BICYCLING WORLD.**

ENTRIES can be forwarded to **JESSE HOWARD, Esq.,** 129 Westminster street, Providence, R.I.

CURRENTE CALAMO

The *Pacific Life* says, that for bicycle riding the streets of Oakland, Cal., are unequalled.

Editorial remark of the *Worcester Evening Gazette*: "Bicycle meets are likely to become a feature of agricultural shows. There were not a few men of experience, yesterday, who pronounced the races more exciting than horse trotting. The parade was picturesque beyond expectation."

The fall riding has commenced in and

around New York, but is not under full headway. Parties of five and six take advantage of every cool evening to spin up the boulevards, across McComb's dam bridge, and along the road to Judge Smith's, a distance there and back of about twelve miles, which seems to be long enough for hot-weather work.

"Altogether it seems as if bicycling might be the best kind of fun for boys. It will teach them to be quick of eye and hand, brave to endure long runs, and bring a sense of freedom and life in the open air such as no other sport can give"—Charles Barnard, in *St. Nicholas* for September.

An irreverent "A. H. O.," in *Puck*, for 25 August, mounts a "prophecy" by vault legs over, thus:—

"Ezekiel saw a vision
Of a cherub on a wheel;
What Zekey took in his'n
He never would reveal;
But we'll bet that machine Elysian
Was a bicycle of steel."

DRAMATIC.—*Scene.*—Cross-roads about a mile and a half from Hingham, on road to Cohasset.

Time.—About 6 p.m.

Dramatis Personæ.—Two bicyclers returning from Nantasket Beach and the Jerusalem road. One bicycle leaning gracefully against a guide-post. Strange conduct of both bicyclers.

No. 1, who belongs to gracefully posed bicycle aforesaid, attempts to appropriate his wheel, starts back suddenly, brandishing arms and helmet with wild gesticulations, then glances back at his machine with surprise and dismay, thoughtfully contemplates it for a few minutes, and makes another attempt to claim his own; advances within about a dozen feet, and dances back again with a repetition of wild gestures and a disgusted as well as discouraged look on his expressive countenance; numerous repetitions of same performance, including same result. Bicycler No. 2, about 3 rods off, is at first perplexed at the strange conduct of his comrade, but soon makes the neighborhood resound with heartless and continued laughter.

No. 1, however, not willing to "give up

the skip" — or rather the machine — takes out his jackknife, marches to the nearest tree, selects a long branch with stout twigs attached, and prepares an apparatus resembling a boat-hook, in order to fish for his machine, while standing about six feet from it.

Several unsuccessful fishings follow, accompanied by repeated retreats, — not always in good order, — by wild brandishing of arms and waving of handkerchief, and intervals of thoughtful contemplation as before.

No. 2 kindly consents, at last, to postpone his cachinnation long enough to inquire at the nearest house for a long handled rake, while No. 1 continues his intermittent fishing with pole and hooked twigs. Finally, just as No. 2 approaches with the coveted rake, No. 1 makes a successful "yank" at his wheel, after approaching it from another direction, and in a few minutes is possessor of his rightful property.

On the way home to Boston the stillness of the evening is frequently disturbed by loud laughter from No. 2, who ends each burst of merriment by shouting "BEES!"

MORAL. — Don't lean your wheel against an old and honeycombed post, tenanted by a lively swarm of jealous bumble-bees, unless you desire to be thoroughly stung and repeat the experience of bicyclist No. 1.

ADVICE. — Hamamelis is a good application for bee-stings, and is furnished very cheap and of excellent quality by a sympathizing and gentlemanly apothecary near the Cushing House in Hingham.

ADDITIONAL ADVICE. — If bicyclers wish an indifferent supper, with good chance to sharpen appetite by waiting for attendance, and then pay a high price for it, the Cushing House is just the place.

EARLY BIRD.

GRAND ARCHERY TOURNAMENT,

WEDNESDAY, Sept. 22d, '80,

LACROSSE & BICYCLE TOURNAMENT,

FRIDAY, Sept. 24th, '80,

During the FAIR of the

THE BICYCLING WORLD

THE BICYCLING WORLD AND ARCHERY FIELD is the official organ of the League of American Wheelmen, and of the Eastern Archery Association, and aims to be a fresh, full, impartial record and herald of all that relates to bicycling and archery in America, — clubs, races, excursions, tours, meets and runs, target competitions, sylvan shoots, hunting, personal items, inventions, manufacture, opinions, humors, ranges, paths, routes, and incidents, the best things from other journals, foreign notes, — and of all subjects of direct or collateral interest to bicyclers and archers and their friends. Communications, correspondence, news items, suggestions, clippings, or other aids will be appreciated, and should be sent to EDITOR OF BICYCLING WORLD, &c., 40 WATER ST., BOSTON, MASS. Contributors and correspondents are requested to give always their full name and address, to write on one side of the paper only, and to observe that our pages go to press at noon of Tuesday preceding date of publication. For our terms of subscription and rates for advertising, see announcement of Rates and Terms in another column.

BOSTON, 18 SEPTEMBER, 1880

OBIT — EDWARD HOGAN. — The decease of this brilliant young journalist, at the age of twenty-five years, on the fifth instant, marks the first asterisk on the membership list of the oldest bicycle club in this country. Edward Hogan had become known in his profession as a graphic and brilliant writer. Over the signature of "Carey" he had furnished the *Boston Herald* with correspondence from nearly all the United States, and from Canada; he had also done excellent magazine work, as well as special editorial duty. He had been connected not only with the *Herald*, but also with the *Boston Advertiser* and the *Denver Tribune*. Of frail physique and constitution, he had bent under the severe application to study and labor to which he devoted himself; and neither recreation on the wheel, nor Southern travel, nor a more bracing and salubrious clime, could stay the hand of disease. A genial, frank, modest, and noble nature was his, and those who were fortunate enough to know him will feel his loss deeply.

The Boston Bicycle Club, of which he was one of the early members, will long cherish his memory, and many more will mourn the loss of his pure life and promising genius.

THE MEETING OF OFFICERS L.A.W., on the eighteenth instant, has been referred to several times in these columns, as one of great interest and importance.

Whilst it will doubtless be well attended, and perhaps attract quite a number of wheelmen to New York at that time, it is not, so far as the League is concerned, an occasion for any parade or grand meeting. The thirty or forty officers who may be there will have all they can attend to on that day in their business meeting. It is understood that the Manhattan B. C. has wisely deferred its proposed generous preparations for a large meet and entertainment to a later time. Under these circumstances it is to be regretted that an impulsive reporter on one of the leading daily papers has given the public a programme of an immense three-day meeting of clubs at that time, with such imaginative detail and ill-advised haste. Even a newspaper prophet should have some basis of fact for calculation before he indulges in large prophecies. The bicycle clubs will not be likely to be imposed upon in this way, as they will look for authoritative invitations and announcements; but the general public will be deceived, and our noble interests can ill bear the effects at this time.

EXCURSIONS.

Until mankind attains the power of flying, or in some way traverses the air, the bicycle or tricycle must remain, *par excellence*, THE conveyance for excursionists.

The dangers, delays, and discomforts of railroad and steamboat excursions are proverbial. No person possessed of any imagination at all can go on an excursion-train without the constant menace of death, or worse, in his mind; steamboat excursions, except under unusually favorable conditions, are shunned by all lovers of comfort and peace of mind as they would shun a Fourth-of-July celebration, or a county cattle-show.

Excursions by horse-power, be they by family or public carriage, stage-coach, tally-ho, or barge, buggy or hay-cart, are after the first hour or two tame and tedious, and after half a day tiresome in the extreme.

Pedestrian excursions are limited in their range, and are fatiguing. Yachting excursions are confined to the very wealthy and their friends, and depend for their enjoyment upon the ever-shifting moods of wind and wave. But the BICYCLE! on it,

No pent-up Utica contracts your powers,
But the whole boundless continent is yours —

(though it must be confessed that east of Utica (N.Y.) is found much the best part of the continent for your range!), and not the continent alone, but continents. Mounted on this phantom-wheel the whole world is under your feet, — two or three feet under them, — and you can skim the earth without base contact with it; without profaning your soles with its dust or its mud.

Wherever a decent road exists there excursions by bicycle are possible with hardly a limitation. Like some games — (only more so) — they may be enjoyed "by any number of persons," from one to — does anybody know how many? "The more the merrier," and a thousand bicyclers can join in an excursion as happily as ten; while the solitary rider can "excursion" by himself, and if he has noble thoughts — "They are never alone that are accompanied with noble thoughts," says Sir Philip Sidney — he can be "his own best company."

I doubt if there are many bicyclers who even yet realize the possibilities of bicycle excursions, and it is with real pity that I view those riders of the wheel who paddle (or *pedal*!) about their own back streets, when the whole world lies before them.

Bicyclers, realize your privileges! — let the pedestrians limit themselves to a few square miles of earth; but *you*, organize an excursion, of one, or of ten, or of more, and strike boldly out — "Steer for the open sea," or for the distant mountain.

Have you yet to see the great lakes of the West pour themselves oceanward at Niagara? — get a friend or two and *start*; you will get there, wherever you start from, and will get there with new strength and health with which to enjoy that grand tumult of the waters. Have you never seen the glorious "White Hills" of New Hampshire? Friend Gilman, of Chelsea, can tell you how nicely you can go to their bases on your wheel, gathering new life, new views of beauty, all the way. Have you failed to see that great dome at Washington, and to have your patriotism stirred by that look upward? — forgetting, it is to be hoped, how empty as that dome are many of the heads which are sent to legislate under it, — mount your wheel, and take the best, if not the shortest, road to it. Or have you never stood on Plymouth Rock and honored the fathers, who, landing there, founded a free country? Have you never seen Hammatt Billings' glorious statue of Faith erected there in their honor, with its heavenward pointing-finger lifting you from the earth by the powerful inspiration of its design? To your saddles, wherever you live, and keep the wheels whirling until they strike into the sands of Cape Cod, then a little walking, and you are there, where every American should make it a point to be at least once in his life.

Is the great West an unknown land to you? Pack your "Mulum in parvo," fill your oil-can and "Go West, young man." Scorning the aid of Vanderbilt, Scott or Garrett, you own your own railroad, you need no Pullman car, but pull-man, pull for the prairies, *time* is your only need.

These are but some of the grander excursions, simpler ones are all about you to choose — for an hour, or a day, or a week.

Moonlight excursions, excursions by the early dawn, or by the common daylight. Do you say that you have "no time for excursions"? Get up some morning at three, eat a light breakfast, let the sun rise on swiftly whirling wheels, and you can enjoy a forty-mile excursion, and be

at your post of duty at the usual hour, bright as a nicked spoke.

"The wheel around the Hub" has attracted a great deal of interest, and it is one of the pleasantest memories of those who took part in it, and the envy of those who did not; but the wonder is, not that forty genial and congenial spirits ran one hundred miles in two days, but that there are not such excursions *every week*. They are perfectly feasible anywhere, at any time from April to November. Inexpensive, independent, inspiring, inviting, invigorating, and indescribably interesting,—words are inadequate to indicate the delights of excursions by bicycle.

A. S. PARSONS.

BICYCLE RACES

THE WORCESTER GRAND MEET AND RACES.

The largest meet of wheelmen, except that of Newport, and the most successful races of the season, occurred at Worcester, Mass., on Tuesday the 7th of September.

The Worcester Bi. C. had connived with the management of the New England Fair Association, whose 17th annual exhibition was opened that day at Agricultural Park, and had arranged for bicycle races, of which the following was the simple but attractive programme:—

NEW ENGLAND FAIR. Bicycle races at 2.30 p.m., open to amateurs only. Worcester, Mass., Tuesday, 7 Sept. 1880. The committee offer the following prizes: First Race—distance two miles. 1st prize, Gold Medal, valued at \$50. 2d prize, Silver Medal, valued at \$20. 3d prize, Bronze Medal. Second Race—distance one mile, 1st prize, Gold Medal, valued at \$40. 2d prize, Silver Medal, valued at \$15. 3d prize, Bronze Medal. Third Race—distance one-half mile, 1st prize, Gold Medal, valued at \$30. 2d prize, Silver Medal, valued at \$10. 3d prize, Bronze Medal. Best two in three heats. Entries free, and should be made with Edward F. Tolman, 424 Main Street, Worcester, Mass., by September 4th. The races will be in charge of a committee of bicyclers. Judges from Boston and Providence Club. The track will be in good order, and ample provision made for the convenience of wheelmen. S. Salisbury, Jr., J. L. ELLSWORTH, G. C. RICE, *N. E. Fair Committee*.

The club had then, as our readers are well aware, extended an invitation to all the bicycle clubs in New England to join them in a grand meet on that day, and to partake of their hospitality. What that hospitality was to be, could only be approximately guessed by those who had been acquainted with the gallant and hearty members of the Worcester Club, and was fully realized by no one until the event proved its completeness and success. The invitation was responded to by several of the clubs, and on the morning of the 7th there appeared at and around the Union Depot at Worcester, representatives of the Rockingham Bi. C., of Portsmouth, N. H., the Hawthorne Bi. C., of Salem, Mass.,

the Star Bi. C. of Lynn, the Waltham Bi. C. of Waltham, the Boston, Massachusetts, and Crescent Bi. C.'s of Boston, the Chelsea Bi. C. of Chelsea, the Brockton Bi. C. of Brockton, the Framingham Bi. C. of Framingham, the Marlboro' Bi. C. of Marlboro', the Northboro' Bi. C. of Northboro', all of Massachusetts; and the Providence Bi. C. of Providence, R.I., with, of course, the Worcester Bi. C., with nearly their 38 membership strong, making in all 14 clubs; whilst among the competitors the Essex Bi. C., of New Jersey, was on hand at the races, but not at the meet. A number of the officers of the League of American Wheelmen, and, of course, a large representation of its membership, was present, although the effect was not apparent to those unacquainted with its membership list, because the badges of that organization are not yet worn.

Some of these men had ridden to Worcester from different points, by wheel, and others by railroad. They were met by representatives of the Worcester Club, and taken for a spin along the boulevard, around Lake Quinsigamond, and elsewhere, making in all about fourteen miles of riding. The entertaining club provided headquarters at a vacant store on Pearl street, where mullum bags, coats, or machines might be left in charge of a keeper; and they had also provided one of the finest of entertainments in a grove on the boulevard, a short distance beyond Agricultural street, toward which the wheelmen, to the number of about one hundred and thirty, were led, after the morning run. It was a delightful spot, and the arrangements were so complete as to include, not only the fruits of the season, hot coffee, hot oysters, and various other articles of food, but even folded copies of the *Spy* for seats, tooth-picks, cigarettes, waste for attention to wheels, and other things which added to the little comforts of the occasion.

After a truly enjoyable hour in the grove the wheelmen were called together on the boulevard, formed into line, officered, and, preceded by galloping officers of the day on horses, one hundred and twenty-six bicycles, and one tricycle, proceeded first in single and then in double file to the fair grounds, where was a parade on the track with several very interesting exhibitions of company riding; especially handsome was the front of the line, beginning with the Worcester Club, all formed in fours, and riding with such precision and grace as to elicit enthusiastic applause from the multitudes of on-lookers.

The races were commenced at three o'clock, and here the carefulness of arrangement which the Worcester Bi. C. had shown in the preparations for the parade and picnic were equally apparent, and the management of the Fair, represented at the stands by Marshal Pratt (not the wheelman), coöperated very efficiently in securing the success which followed. One stand was reserved for the press, and another for the judges.

Among the distinguished men present at the latter was Hon. George B. Loring of Salem.

The judges were Charles E. Pratt, President Boston Bi. C. and L.A.W.; A. G. Carpenter, President of the Providence Bi. C., and Fred S. Pratt, Captain of the Worcester Bi. C. Mr. E. F. Tolman, Secretary of the Worcester Bi. C., rendered most prompt and efficient service as starter. Messrs. Blake, Howard, and two other gentlemen, served as time-keepers, and Messrs. A. S. Parsons, E. W. Pope, W. H. Ames, W. P. Rowell, served as deputy judges on the track.

There were 25 entries in each race, though but 8 starters in each. The men were started still from scratch, each one being held by an attendant. There were three events: 2 mile, 1 mile, and $\frac{1}{2}$ mile, each for best two and three heats; but the first only was run in three heats, as the first two heats decided each of the other two, and the order of the heats was as follows: First heat of the 2 mile, first heat of the 1 mile, first heat of the $\frac{1}{2}$ mile; second heat of the 2 mile, etc. A schedule of the times of the three first men in each heat, in each race follows:—

Two-mile heats.

	First.	Second.	Third.
L. H. Johnson	6.30 $\frac{1}{2}$	6.31 $\frac{3}{4}$	6.31 $\frac{3}{4}$
C. W. Sewall	6.33	6.43 $\frac{3}{4}$	6.31 $\frac{1}{2}$
W. O. Faulkner	6.31	6.33 $\frac{3}{4}$	6.33
J. E. Brown	6.36		

One-mile heats.

	First.	Second.
L. T. Frye	3.19	3.20 $\frac{3}{4}$
T. H. Johnson	3.22 $\frac{1}{2}$	3.23 $\frac{1}{2}$
J. E. Brown	3.22 $\frac{1}{2}$	3.28 $\frac{3}{4}$

Half-mile heats.

	First.	Second.
W. W. Stall	1.32 $\frac{1}{2}$	1.28 $\frac{3}{4}$
L. T. Frye	1.32 $\frac{1}{2}$	1.32
E. C. Walker	1.33 $\frac{1}{2}$	1.35 $\frac{1}{2}$

Prizes were awarded to L. H. Johnson (Essex Bi. C.), Sewall (Waltham Bi. C.), and Faulkner (Star Bi. C.), in the first race; to Frye (Marlboro' Bi. C.), F. H. Johnson (Brockton Bi. C.), and Brown (Worcester Bi. C.), in the second; and to Stall (Waltham Bi. C.), Frye (Marlboro' Bi. C.), and Walker, in the third, in the order named.

The heats were all closely contested, the leading men in each doing their best, and passing the line in rapid succession, as the times indicate. The track, which was a half-mile trotting circuit, was in good condition for its kind; the slight rain of the night before, and the rolling which had been given it, making it much better than the ordinary trotting track for racing on wheels. There was scarcely any wind, and the sky was overcast, so that the conditions were favorable.

The competitors appeared in good form and good spirits, and, although none of them had been in special training for the event, the times made were remarkably good, and better than have been heretofore made in this country on out-door tracks.

Mr. L. H. Johnson rode a 54-inch Howard Roadster, Mr. Stall a 56-inch Gooch machine, and Mr. Sewall a 48-inch Velocity. It was noticeable that the only "racing" machine proper, on the track, was that of

Mr. E. C. Walker, an Englishman, now at Chelsea, Mass., who had a light racer made by Singer & Co., of England.

Time — 2-mile race.

$\frac{1}{2}$ mile.	1 mile.	$1\frac{1}{2}$ mile.	2 miles.
1.34	3.13 $\frac{1}{2}$	4.53 $\frac{1}{2}$	6.30 $\frac{1}{2}$
1.39 $\frac{1}{2}$	3.20 $\frac{3}{4}$	4.59 $\frac{1}{2}$	6.33 $\frac{1}{4}$
1.38	3.19	4.57	6.31 $\frac{3}{8}$

Time — 1-mile race.

$\frac{1}{2}$ mile.	$\frac{3}{4}$ mile.	$\frac{5}{8}$ mile.	Mile.
46	1.37	2.25 $\frac{1}{4}$	3.19
48 $\frac{1}{2}$	1.39 $\frac{3}{4}$	2.30 $\frac{1}{2}$	3.20 $\frac{3}{4}$

Time — half-mile race.

Quarter.	Half.
44 $\frac{1}{2}$	1.32 $\frac{1}{4}$
44	1.28 $\frac{5}{8}$

The races were concluded at about 5.15, the prizes awarded, but not delivered, as they were held for engraving with the winners' names. Then was another mount of the wheelmen, a run through the principal streets of the city to the railway station, and a hearty and enthusiastic leave-taking.

The visiting wheelmen will long remember the generous hospitality and noble spirit of the Worcester Bicycle Club.

The New England Agricultural Society found its liberal patronage of the races, not only very much to its credit, but greatly to the enjoyment of a largely increased attendance at the grounds. The report of the races would be incomplete without a particular mention of the liberality and courtesy extended by the management and the employés of the Boston & Albany Co., who, both at the stations and on the trains, during the whole of the 7th and the afternoon of preceding day, did everything that could be reasonably done for the convenience and comfort of the wheelmen. This liberality of the B. & A. R.R. was the subject of much pleasant comment on the 6.15 train, which bore the larger part of the wheelmen toward Boston.

The marshals of the parade were Capt. Fred. S. Pratt, Chief Marshal; Geo. M. Doe, Edwin Brown, Prof. W. U. Barnes, E. F. Tolman, J. M. Bemis, aids. The dinner committee were Capt. Fred. S. Pratt, Dr. J. F. Adams, George M. Doe; committee on races, E. K. Hill, W. P. Rowell, F. E. Blacke; committee on track, Edwin Brown, E. F. Tolman, A. W. Darling.

ELMIRA, N.Y. — *Editor Bi. World and Archery Field*:—The five-mile bicycle race, which was advertised to take place at the Elmira Driving Park on Tuesday, 31 August, was postponed on account of "bad condition of track" until Friday, 3 September. Being a "devoted wheelman," of course I went the thirty-eight miles lying between Canton and Elmira to attend. The event was somewhat of a disappointment, as five entries had been advertised and only two men started, namely,—Frank Nearing and William Browne, both of Elmira; they do say the other three men were really "scared out." Almost from the start it was evident the race was Nearing's. On the first quarter Browne led, but before the half was reached Nearing

had put several lengths of daylight between his rear wheel and Browne's fifty-inch tire. The race was not very exciting, as you would suppose, when I tell you Nearing is the better rider, and held a four-minute gait. Brown never pushed him once, and seemed to labor much in keeping the lead from increasing. On the fourth mile rain commenced falling, and for a few minutes the boys had a disagreeable ride. It lasted but a short time, and on the last half mile Nearing made a very pretty spurt and went under the wire an eighth of a mile before Browne. wet and a little played, but victorious. Time, 20m. 42s.

There were two prizes, 1st and 2d. The first prize was one of the handsomest I remember seeing for a long while. It consisted of a gold oblong piece, at top, with first prize engraved; attached to it by a piece of silk ribbon was another oblong piece, having a beautiful little diamond in the centre, and "18" and "80" each side; slung to this was the medal, a heavy gold one, having a bicycle engraved in centre, and "Bicycle race, five-mile dash, Elmira," at top. Value, \$100.

Second prize was similar, only without diamond, and a little more plain. Valued at \$25.

Mr. Nearing is one of the best wheelmen in these parts, and is contemplating a trip of from eight hundred to a thousand miles through New York State. Should I be in the land of the living next year, I hope to give some dust to chew, while he gazes at the fast disappearing form of my rear wheel. The weather here, at present, is magnificent for riding, and roads are also remarkably good for Pennsylvania, and situated as we are, in such a beautiful part of the State, you can imagine it delightful. I wish I could persuade some genial wheelman to run up and spend a week or so; I am sure it would not be regretted. We are to have a very fine half-mile track here next year, which is in course of construction now. It is on the grounds of the "Union Agricultural Association," and as I have some shares in the affair I shall get up some "wheeling." Then look out for races, and some glowing accounts which I hope to write you.

"CYCLUS."

The Cottage, Canton, Pa., 11th Sept.

BARDSTOWN, KY. — *Editor Bicycling World and Archery Field*:—The event of the day at the Bardstown, Ky., Fair on the 29 September was a bicycle race, one-half mile heats, best two in three, for two gold medals. The entries were W. B. Sale, on a 50-inch Standard Columbia; John F. Adams, on a 52-inch Harvard; and O. W. Thomas, Jr., on 56-inch D. H. F. Challenge,—all from Louisville. The race was made in the presence of several thousand spectators, and, being something entirely new and novel in Nelson County, it created no little excitement. The track was one-third mile in length, having a down grade at the outcome. At the start, in the first heat, Sale took the lead and held it for a little over a quarter mile, when Thomas crawled up, passed him, and won the heat while coming down

the grade at a very fast pace. Sales, who was lapping Thomas' hind wheel, took a bad tumble when within about 75 yards of the judges' stand, but fortunately escaped without injury. Adams, who was some distance behind, got second place on account of this. Time was taken for the one-third mile only, being made in 1.11.

On the second heat Sale and Adams run neck and neck for one-third mile, but here were both passed by Thomas, who won second heat and first medal. four or five feet only of daylight being between him and Sales. Adams finished last. Time, one-third mile, in 1.10.

On the run off for second medal, Sale won easily in 1.17 $\frac{1}{2}$.

Our club is proud of Mr. W. B. Sale for having made, we believe, the quickest time on record for a quarter mile. His time is 37 $\frac{1}{2}$ seconds, made in a race against time on the trotting track of the Louisville Zoölogical Association on 8 September. He rode on a 50-inch Standard Columbia. Two watches were held on him, so there is no mistake about it. Let us hear from some one beating it. More anon.

Yours truly, HANDLE BAR.

WILLIAMSBURG RACES. — The new grounds of the Williamsburg Athletic Club, Wythe avenue, Penn and Rutledge streets, were crowded to their fullest capacity on the 28th ult., it being the occasion of the annual handicap meeting of the club. After a large number of events had been contested for, the track was cleared for the two-mile handicap bicycle race, for which there were seven entries. Of these, however, only five started, the names of C. S. Gaubert, Williamsburg Athletic Club, and H. G. Ohlsen, Williamsburgh Bi. Club, being scratched at the last moment. The starters were: Rawson Underhill, Manhattan Bi. Club, scratch; Fred. Jenkins, Manhattan Bi. Club, 100 yds.; G. G. Smith, Williamsburgh Bi. Club, 110 yds.; George Bond, Williamsburgh Bi. Club, 100 yds.; and M. Lazare, New York Bi. Club, 125 yds. All of the men were in fine condition, Underhill especially, and they presented a neat appearance arrayed in the racing uniforms of their respective clubs. At the report of the starter's pistol the men were off, Lazare, who rode Keen's 56-inch "Eclipse," losing pace rapidly, his machine being two inches too large for him; Jenkins followed on a "Pacer," with Bond and Smith on "Royal Challenges," close at his heels. On the lower turn of the first lap Lazare got off his machine, it being impossible for him to continue on such a machine. On the home stretch of the second lap Smith attempted to pass Jenkins on the inside track, and threw him. Both fell to the ground amid considerable excitement, the spectators believing that they were injured. Fortunately they were unharmed. From this moment the race was between Bond, who had the lead, and Underhill, who was gaining fast upon him. On the first mile Underhill caught up with Bond and attempted to shake him; but the sturdy little Williamsburgher refused to be shaken, and clung tenaciously at Underhill's heels. On the last lap, however,

Underhill spurred and won the race in 7:54.

RACING AT CONEY ISLAND.—Arrangements are now pending for the securing of the grounds of the Alexandria Exhibition Company at Manhattan Beach, Coney Island, for racing purposes. The track is made of boards, and measures eight laps to the mile. There are seating and standing accommodation on the grounds for over ten thousand people. It is understood that races are to be given there, at an early date, under the management of Mr. Wright.

CASIUS MARIUS.

SHELBYVILLE, KY.

Editor Bi. World and A. F.: Among the features of the Shelbyville, Ky., Fair, on Friday, 27 Aug., was a bicycle race, half-mile heats, best two in three, for two gold medals; valued at \$20.00 and \$10.00, respectively. For the first medal were entered Jno. H. Adams on a 52-in "Harvard," and O. W. Thomas, Jr., on a 54-in. "Royal Challenge," both from Louisville. Thomas won in two straight heats. For the second medal were entered S. S. Griffith, of Shelbyville, Allen, of Frankfort, and Cunningham, of Nashville, Tenn.,—all on "Standard Columbias." Cunningham won the first heat, but there being so much excitement among the spectators it was impossible to keep them off the track; in consequence both Griffith and Allen ran into persons, thereby throwing them from their pigskins. The judges, therefore, declared this heat off. In the second heat Allen won, after which the other contestants withdrew, leaving second medal to Allen. Seven or eight thousand people were in attendance. Yours truly,

HANDLE BAR.

WILLIAMSBURG.—The following are the events of Saturday, 11 September, at the grounds of the American Bicycling Company: Three (3) mile bicycle race; two (2) mile Bi. race; after which a one mile race between W. Smith, of the Williamsburg Athletic Club, and Geo. Ohlsen, of the Williamsburg Bi. Club. Smith was allowed 2½ laps, on a 12-lap to a mile track, and won by 2 seconds; time 3m. 53sec. The 3-mile Bi. race was won by F. Keller; time 14m. 55sec. The 2-mile Bi. race was won by Ed. Fisk; time 8m. 12½sec. Following the above was a very exciting pony race, which was won by J. Broona, best three out of five times; best heat 1m. 20sec., with six entries, all of which started; and a slow race for donkeys, with six starters; won by Geo. Bond.

FORK.

MILWAUKEE, WIS.—On the 9 August, a six-days' professional race between George Douglass, E. M. Hicks, and C. E. Fowler, all of Philadelphia, was commenced on a track of 16 laps, in the west-side rink, racing to be for 12 hours a day. The result at the end of the 5th day stood as follows: Hicks, 574 miles; Douglass, 559 miles; Fowler, 468. On the 6th day the race ended in a fizzle, we believe, and the record is not yet to hand.

THE BADGE won by Mr. Johnson, winner of the 2-mile race at Worcester, consists

of a bar and pin, on which are the letters "First Prize," from which is suspended a heavy gold badge, having somewhat the appearance of a lady's watch, on the obverse of which is a miniature view of a track, with the judges' stand, containing the three judges, from the pole, on which flies the national ensign, with two mounted bicyclers approaching the line, surrounded by the legend, "New England Fair Tournament;" and on the reverse, enclosed in a wreath, having the shield 1880 and a raised arm, with grasped hammer between the branches, are the words, "Awarded to L. H. Johnson, Essex Bi. C., 2 miles, 6m. 30½s., Sept. 7th." The whole is backed with a rich double ribbon, of the distinctive color (cardinal) of Worcester Bi. C., under whose patronage the races were held.

AT COTTAGE CITY, on the 30 August, a tie was run off to determine the championship of the city, between Wm. H. and Oakes Ames, these two brothers having each won four of the five mile races in the series at that place. At the completion of the first lap Oakes Ames fell and sprained his knee, so badly as to be obliged to withdraw, leaving his competitor an easy winner of the first prize; the latter is a gold medal of the value of \$30, engraved on one side "Cottage City, 1880." The second prize is of silver and similar in design.

CHARLOTTE, MICH.—In the 10-mile bicycle race at Charlotte, Mich., 21 Aug., there was five starters. It was won by Edward Pierce, of Boston, in 41m. 50s. Geo. Harrison, of same place, was second. X. Y. Z.

L. A. W.

Editor of the Bicycling World:—The following names have been proposed for membership in the League of American Wheelmen, and are sent you for publication, as required by the Constitution.

ALBERT S. PARSONS,
Cor. Sec. L.A.W.

SAN FRANCISCO BI. C.—Ralph de Clairmont, 17 Front st.; G. Loring Cunningham, 206 Sansome st.; George H. Strong, 202 Sansome st.; Charles L. Barrett, 124 Post st.; John B. Golly, 26 Geary st.; Thomas J. Pettit, 1708 Clay st.; James G. E. Gauld, 619 Pine st.; George J. Hobe, Masonic Temple; Charles A. Butler, 210 Octavia st.; Proctor W. Kimball, 519 Hayes st.; George A. Aldrich, 1011 Pine st.; J. Fletcher Sims, 2404 Mission st.; Charles L. Leonard, Grand Hotel; Robert B. Woodward, 646 Folsom st.; John A. Langstroth, 17 Pearl st.; Columbus Waterhouse, 31 Tremont st.; Frederick A. Waterhouse, 31 Tremont st.; Charles K. Cadman, 19 Glen Park ave.; Henry C. Finkler, 105 Stockton st.

HARTFORD WHEEL C.—Clark Lawrence, 357 Capitol ave.; Elmer M. White, 17 Morris st.; Frederic C. Penfield, 155 Washington st.; Edward T. Copeland, 5 Grand st.; Thomas Waite, 25 Grand st.; George Austin, 152 Seymour st.; Arthur H. Eddy, 57 Sigourney st.; Richard D. Perry, 19 Russe st.; Arthur H. Waite, 25 Grand st.; Joseph D. Hamilton, 17 Buck-

ingham st.; John N. Cavanagh, 23 Flower st.; William L. Howard, 647 Asylum ave.; George D. Stebbins, 25 Madison st.; Geo. W. Smith, 150 Capitol ave.; Frank B. Pope, 325 Main st.

BRATTLEBORO' BI. C.—Oscar A. Marshall; Walter S. Underwood; Arther W. Childs; Frank G. Knight; J. E. Monroe; A. W. Seddons; Elmer G. Monroe; Amos Ashcraft; W. B. Clark; all of Brattleboro', Vt.

ADDITIONAL.—Wm. D. Gilbert, Grand Rapids (Mich.), Club; Harry T. Stanton, do.; George R. Wright, Wilkesbarre (Pa.), Club; Theodore Reith, 1538 Pine st., Philadelphia, Pa.; Clarence M. Clark, School Lane, do.; C. F. Cohe, jr., Chestnut Hill, do.; Roswell Ewing Williams, 1132 Market st., do.; all of Germantown Bi. Club.

FOREIGN.—Walter D. Welford, Newcastle-on-Tyne, England.

ADDITIONAL MEMBERS OF BUFFALO BI. CLUB.—Edward M. Bell; Frank W. Calkins; George Dakin, Jr.; Jno. T. Gard; Louis C. Hohl; Bela C. Jewett; M. Emmet Taber; William P. Walker.

UNATTACHED.—George W. Hamilton, Johnstown, Pa.; Wm. C. Rhodes, do.; Arthur Edwards, Chicago, Ill.; Robin A. Edwards, do.; Frank S. Fay, West Meriden, Conn.; Edmund E. Branch, Lawrence, Mass.; Charles W. Lee, 15 East 45th st., New York.

WORCESTER BI. C.—Chas. A. Barnard, No. 2 Crescent st., John C. Spears, 44 Central st., Frank E. Knight, 30 May st., C. R. Macomber, Summer st. Asylum, L. F. Herrick, Millbury, Mass.

UNATTACHED.—Francis Cragin, care Jas. Hewins, 29 Pemberton sq., Boston; Dr. G. F. Marsden, Red Bank, N.J.

THE FOLLOWING NOTICE, to officers and directors is received:—

"Dear Sir,—There will be a meeting of the board of officers of the *League of American Wheelmen*, at New York City, at 10 o'clock a.m., Saturday, 18th September, 1880, at which your attendance is requested. Matters of great importance to the League will be decided at the meeting, and a full attendance is desired.

"Permit me to call your attention to the article on 'Rules for the L.A.W.' in the BICYCLING WORLD of 4 Sept. (first page), and to say that, if it is impossible for you to be present, suggestions or any expression of your views will be of value, and may be addressed to any officer of the League.

"Respectfully yours,

"ALBERT S. PARSONS,

"Cor. Sec. L.A.W.

"The meeting will be held at Metropolitan Hotel."

WHEEL CLUB DOINGS

FRAMINGHAM BI. C.—Organized 6 September, 1880, with officers as follows: President, J. J. Valentine; Captain, George S. Hatch; Sub-capt. H. W. Bean; Secretary and Treasurer, W. D. Wilmot; Club Committee, W. A. Norton, N. A. Hudson.

HARTFORD WHEEL CLUB.—At a meeting of this club, the pioneer "wheel"

organization of the country, 8 September, the following officers were chosen: President, Clark Lawrence; Secretary and Treasurer, Elmer M. White; Captain, Frederic C. Penfield; Sub-Captains, Edward Copeland and Thomas Waite; Club Committee, Clark Lawrence, F. C. Penfield, E. M. White, Arthur H. Eddy, and George Austin. It was voted to make application for membership to the League of American Wheelmen as a club, also to participate in the Brooklyn Coney Island meet on the 18th. The club now numbers sixteen uniformed members.

MERCURY BI. C.—At a full meeting of this club held on Monday evening, 6 Sept., Col. A. A. Pope, of Boston, Mr. W. F. Shunk, Chief Engineer of the Manhattan Elevated R.R., and Mr. James Buchan, Jr., of Westchester, were elected honorary members; Mr. S. Conant Foster and Mr. Maurius Lazare were elected active members. Club meets on Thursdays as heretofore.

ROCHESTER BI. C.—Membership has increased from twelve to twenty-seven. At a recent meeting the following officers were elected: President, F. H. Wilkins; Secretary and Treasurer, C. T. Hovey; Captain, W. H. Reid; Sub-Captain, A. M. Bennett; First Guide, F. B. Graves; Second Guide, R. A. Punnett; Executive Committee, W. H. Learned, C. E. Crouch, F. F. Chase, J. R. Niven. About four-fifths of the club have learned the standstill, thirty or forty different mounts and dismounts, and other fancy tricks. A few days since two members of the club, Messrs. Niven and Burnett, rode from Rochester to Buffalo, a distance of over seventy miles, in ten hours' riding time. The road was very rough and a strong wind was blowing in their faces; considering which facts the time was thought to be good. Other rides of twenty to fifty miles are being taken almost every day.

STAR BI. C.—This club (formerly known as Lynn Bi. C.) has secured rooms on Market street for head-quarters, has adopted a very pleasing uniform, admitted a number of new members, and altogether appears to be in a very flourishing condition. Costume: white flannel shirt, with blue cord in front to lace it; gray breeches and hat, blue belt and stockings. The names of officers have previously been announced.

CORRESPONDENCE

"IT IS STRANGE to me that any one who rides a bicycle, or shoots an arrow, can do without the *Bicycling World & Archery Field*," writes one of the genial and accomplished patrons of both arts at Pittsburg, Penn.

MR. W. R. PITMAN writes: "Will you kindly make mention, in your next issue, that I shall not compete in the championship bicycle race, 15 September, at Mott Haven. My reason for making this request is that there might be some riders who would not enter were I one of the contestants as things are at present;

and as I do not want to be a dog in the manger, and, by entering, keep out others who would like to enter, have decided as above. One other reason is, that as the N.A.A.A. have asserted my right to enter any of their races, I am satisfied. If it had been possible for me to have arranged my business so as to give the necessary time to preparing for such an important event, it would have pleased me, for I had hoped, at that time, to give a good account of myself."

NEW YORK, 9 Sept., 1880.

Mr. A. S. Parsons, Cor. Sec., Cambridgeport, Mass.:—Dear Sir,—Mr. Wright wishes me to say that during the coming meet of the officers of the League of American Wheelmen, in this city, he will gladly take care, free of charge, of all the bicycles belonging to the members of the association and those attending the convention.

Arrangements will be made for storing the machines at his up-town establishment, No. 791 Fifth ave., where every attention will be shown to wheelmen.

Very truly yours,

S. CONANT FOSTER,
Manager for WM. M. WRIGHT.

PERSONAL

CAPTAIN E. C. HODGES, B. Bi. C., is disabled with an abscess on his right hand.

MR. J. S. DEAN, B. Bi. C., has been laid up a few days with a lame foot,—run over by a careless teamster on the run to Northboro'.

MR. ALEX. SCHWALBACH has just returned from a month's vacation at Bay Shore, Long Island, on the great South Bay.

MR. PITMAN says he will not compete at Mott Haven on 25th inst. He hasn't found time to prepare for "such an important event."

T. K. LONGSTRETH, Esq., President of Philadelphia Bi. C., and Vice-President of L.A.W., is just recovering from a serious attack of typhoid fever.

MR. W. LAMSON, Captain of the Columbia College Bi. C., has been spending most of his vacation at Manhattan Beach, supplementing the same with a visit to the Thousand Islands.

THE "Columbia Bicycle Agency," at corner Fifth avenue and Smithfield street, Philadelphia, Penn., is one of the liveliest agencies, and represents four manufacturing and importing firms for that section.

PROF. ROLLINSON is about to sever his connection with the Williamsburg Bi. Track and start in business for himself. He conducted the Norwalk races on the 17th for the Fairfield Co. Agricultural Society.

GEN. B. F. BUTLER, of Lowell, Mass., has a fine bicycle-track laid out within his grounds, near his residence, which on Sept. 1 was the scene of a lively three-mile race between James Cleary and Michael Lynch, both of Lowell. There was an immense gathering to witness the race, which was

for \$25 a side, and was easily won by Cleary. Time not taken. The track is a little too round for pedestrian contests, it being almost a perfect circle, eight and one-half laps to the mile.—*Clipper*.

KNIT JACKET.—"Will you please insert the following query in your paper: Which of our visitors of the 7th inst. left behind him a knit jacket? Address E. F. Tolman, Sec. Wor. Bi. C., 424 Main Street, Worcester, Mass.

MR. H. EDWARDS FICKEN, the well-known hurdle-jumper of New York, has resigned from the Mercury Bi. Club. Mr. Ficken will soon enter the *vinculum matrimonii* with a very charming young lady, and, in future, intends to eschew all athletic sports and meander through the more quiet paths (?) of the Benedict.

MR. C. K. BILLINGS, of New Haven, Conn., has purchased from Mr. Wright, John Keen's gold-plated Eclipse racer. This bicycle has won more races than any other machine in America. It was made by Keen especially for himself, is a 54-in. wheel, and weighs but 27½ lbs. During the coming meet in New York City, Mr. Wright will take care of all the bicycles belonging to those attending the convention, free of charges.

MR. JOSEPH MCKEE, Williamsburg Bi. C., and at the head of the manufacturing firm of McKee & Harrington, is now in Europe on a visit.

MR. C. JULIAN WOOD is the pioneer wheelman of Hackensack, N.J. The roads in that vicinity are rather soft and sandy, except the turnpike, which has been neglected, and is very poor; nevertheless, Mr. Wood, between February and July, found great pleasure in taking short runs to Yonkers, Mont Claire, Orange, Jersey City, and other places, aggregating 500 miles, and found his only sorrow in the fact that he was compelled to ride mostly alone. But pioneers must ride alone until others see the attractions of their example; and we shall expect to record the formation of a Hackensack club.

MR. S. CONANT FOSTER, at our latest meeting, could give no answer to our inquiry, "Where is Eli?"

NEW MARLBORO'.

A NEW, fresh, quiet, cosey HOTEL, on both American and European plan. Conducted as a first-class house; centrally located. Bicycles properly cared for. Rates, for rooms, \$1.00 per day per person; rooms and meals, \$2.00 and \$2.50 per day. **CHARLES H. MOORE**, Proprietor.

736 and 738 Washington Street,
Boston, Mass.

MINCHIN & CO.,

DEALERS IN

GENTLEMEN'S FINE FRENCH CALF
BOOTS, SHOES, AND GAITERS.

13 Water St. and 16 Spring Lane,
BOSTON, MASS.

THE ARCHERY FIELD

THE BICYCLING WORLD AND ARCHERY FIELD is the official organ of the League of American Wheelmen, and of the Eastern Archery Association, and aims to be a fresh, full, impartial record and herald of all that relates to bicycling and archery in America, — clubs, races, excursions, tours, meets and runs, target competitions, sylvan shoots, hunting, personal items, inventions, manufacture, opinions, humors, ranges, paths, routes, and incidents, the best things from other journals, foreign notes, — and of all subjects of direct or collateral interest to bicyclers and archers and their friends. Communications, correspondence, news items, suggestions, clippings, or other aids will be appreciated, and should be sent to EDITOR OF BICYCLING WORLD, &C., 40 WATER ST., BOSTON, MASS. Contributors and correspondents are requested to give always their full name and address, to write on one side of the paper only, and to observe that our pages go to press at noon of Tuesday preceding date of publication. For our terms of subscription and rates for advertising, see announcement of Rates and Terms in another column.

BOSTON, 18 SEPTEMBER, 1880

GRAND MEETING OF THE EASTERN ARCHERY ASSOCIATION.

[Official Report.]

The Eastern Archery Association has just closed its second annual field meeting. Of course the inevitable growling was heard; but we doubt if any archer or visitor looks back on it with any other feelings but those of pleasure, and the only regret is that we must wait a whole year for another. One of the most noticeable things is the number of pleasant friends we meet, and the real sorrow with which we say good-by to them. There seemed to be more of this feeling this year than last; the meeting being held in the country, made the archers more dependent on each other for social amusements, and the evenings were spent in discovering the other qualities of our friends that we met in front of the targets.

Much improvement was seen in the scoring over last year, and the result was quite creditable to the Association. Many causes operated against the making of large scores, but for the first trial of the York Round we doubt if any other meeting can give a better showing; but the best comparison of the two years is shown by the American Round. Last year the champion only made a score of 556 at the Double American, and this year there were eleven higher scores, and probably would have been more if all had shot it; but some of the best archers reserved their strength for the York Round.

A like improvement can be noticed in the ladies' scores; last year the highest score at the Double Columbia Round was 406, while this year the highest was 526, and half of the lady archers passed the '79 score. Quite good scores were also made at the longer distances of the National

Round, and Miss Ager's score would have been creditable to almost any one. We are glad to see that the feeling some ladies have had against shooting in these large matches is dying away. Some of the best lady archers of this year would not be persuaded to shoot last, and next year there will be a great many more to shoot.

Wednesday morning we took our positions at the targets, to which we had been assigned by lot, and found out with whom we were to shoot for the next three days, and where the crack shots were. When everything was ready nearly every archer came forward in turn and scored three misses; there was a general laugh; and, the nervousness over, all settled down to their work intent on good scores. How we succeeded the following tables will show.

NOTE.

A Ascham Archers, Brooklyn, N.Y.
B Brooklyn Archery Club, Brooklyn, N.Y.

	25-81		

These matches were finished Friday morning, and the team matches were announced for 1.30 p.m. The archers assembled promptly, and for the first time found themselves among friends, before this having shot at the target they happened to draw; but now, with their own clubs they hoped to do better. The Jamaica and Pequossette ladies were at targets A and B; then the Lewiston gentlemen at C; and the Pequossettes, Orinians, Cedarwoods, and Hawthornes at G, E, etc. The Jamaica ladies and Hawthorne gentlemen won the first prizes, with the following scores:—

Ladies' Team Match. 72 Arrows at 50 yds.

	1st-24	2d-24	3d-24	Totals
Miss Ager	16-60	17-79	13-39	46-178

	158-639			

As soon as the team matches were closed, the handicap matches for those who had not won prizes were called. The handicap allowances were estimated for the gentlemen on their scores at 60 yds in the Double York Round. James Dwight, having made the highest score that did not take a prize, started scratch, and the others were given an allowance to make their scores equal to his of 123.

In the ladies' handicap Miss Allen, of West Newton, started scratch with a score of 132 made at 50 yds. in the Double National Round.

Ladies' Handicap. 48 arrows at 50 yds.

	Score.	Allowance.	Total.
Miss Clark, P	20-58	81	139
Miss M. L. Magee, P ..	16-49	89	138
Miss Ingraham, P ..	20-90	79	169
Miss J. Ager, J	31-123	22	145
Mrs. Shackford, P	20-93	42	135
Miss Allen, WN	24-98	..	98
Miss E. L. Magee, P ..	14-64	34	98

Only Miss Clark and Miss M. L. Magee were entitled to shoot in the handicap, on account of not having won a prize, and the others shot to keep them company.

Gentlemen's Handicap. 48 arrows at 60 yds.

	Score.	Allowance.	Total.
H. Brackett, H	30-132	23	155
W. H. Young, C	25-99	49	148
A. G. Whitman, P	20-83	58	141
James Dwight, H	30-138	07	138
G. D. Underwood, P ..	19-73	62	135
John Worcester, P	20-72	60	132
H. N. Baker, P	16-62	69	131
A. Geyer, A	15-67	55	122
R. B. Lawrence, O	26-98	20	118
R. M. Brown, A	14-38	18	56

This ended the three days' shooting, and all that was left to do was to find out what prizes we had won, and start for home.

The prizes were divided among the winners in the York and American Rounds, the first choice being given to the York Round, the second to the American, the third to the, York and so on; no one being allowed to take a prize in both rounds.

Mr. Peddinghaus chose a bronze clock; W. G. Morse a royal express bow; F. H. Brackett two dozen Granger arrows in a case; E. L. Morse beefwood express bow; A. S. Brownell a pair of handsome skates; O. A. Horr a fly rod; C. D. R. Moore a snakewood bow; J. W. Austen Jr., a lancewood express bow; C. C. Moore half-a-dozen Horsman arrows; W. N. Fraser one dozen Courroy arrows; F. R. Dabney one dozen prize arrows; H. Innes, Horsman gem bow; J. B. Cotton, Horsman three-piece

bow and J. W. West took the last, a fly book.

The ladies prizes, were divided in the same way, the first choice going to the National Round, and the second to the Columbia. Miss Ager chose a diamond lace pin; Miss J. Ager a backed yew bow; Miss E. L. Magee a royal express bow; Miss Allen a beefwood express bow; Mrs. DeLuna one dozen arrows; Miss Sprague a lancewood bow; Miss Plimpton opera glasses; Mrs. Shackford a pair of skates; Miss Ingraham half-a-dozen arrows; Mrs. Geyer quiver, guard, etc.

For the team matches the Jamaica ladies won three silver lace pins, and the Pequosettes a lawn rack. The Hawthorne gentlemen won the silver badges and two targets with their stands; the Cedarwoods targets and stands; the Oritani team won a target and stand and four copies of Thompson's "How to train in Archery;" the Lewiston Toxophilites a target and stand, and the Pequosette team will have the "Archery Field" to read in the following year.

The special prize of a silver cup for the club making the highest aggregate score with its teams of ladies and gentlemen was taken by the Pequosettes in default of other competitors.

In the handicap matches, Miss Clark won a target and stand; Miss M. L. Magee a silk fan; Miss Ingraham a gold arrow; Miss J. Ager "How to train in Archery;" and Mrs. Shackford will be on the subscription list of the Archery Field. Howard Brackett won first prize among the gentleman, and has a new target to practise at; W. H. Young won Ford's book on Archery; A. G. Whitman years' subscription to "Archery Field;" James Dwight a Brownell score book; G. D. Underwood and John Worcester have each one of French's machines to draw and loose their bow-strings with; and Mr. Baker will shoot next year according to the instructions given in "How to train in Archery."

The informal manner of awarding prizes, and in fact of the whole meeting, made it a very pleasant one, and there was nothing but regret, when the last arrow was shot, that the meeting was over.

W.P.A.A. FIELD MEETING.

Editor Bi. World and Archery Field:—The initial Field Meeting of the Western Penna. Archery Association took place on the 1st inst. The day was fine, but gusty; and although the place of meeting was at Edgewood, a pretty village seven miles from the city, the attendance was quite flattering. The scores may excite a compassionate smile from Eastern and Western Archers, but were quite fair considering that none of the ladies and very few of the gentlemen had ever shot at a greater distance than 120 feet. The meeting has given quite an impetus to Archery in this vicinity, which already has about a dozen clubs of from three to thirty members each. An Allegheny County Club will be formed out of the best material of the smaller clubs, and it is expected to be the crack club of Western Penna. although the

Juniatas of Tyrone and the Wapsonouoc of Altoona are said to be fine clubs.

Eight clubs, — the Sherwood, Edgewood, Birnamwood, and Oak Grove, with full teams, and the Nottingham, Locksley, Killbucks, and Chief Jacob, with partial teams — took part in the contest. The generous Horsman, of New York, contributed a fine gents' bow and Carrows for the gentlemen, and an elegant lady's bow and C arrows for the ladies. A unique floral target was offered by Elliott & McKee, as a lady's prize.

The interest was concentrated on the ladies' target, whose graceful postures and stunning costumes were the admiration of the spectators.

This meeting was merely preliminary to the tournament to be held in about a month.

The following is the score: —

Gentlemen.					Club.
	40 yds.	50 yds.	60 yds.	Total.	
Robinson	125	75	52	252	Chief Jacob.
Macrum	126	71	48	245	Sherwood.
Parker	121	68	51	240	Edgewood.
Westinghouse	105	74	54	233	Birnamwood.
Boyle	120	36	56	212	Sherwood.
Carpenter	100	77	29	206	Edgewood.
Caldwell	81	53	51	185	Birnamwood.
Wright	81	43	47	171	Oak Grove.
Blattenberger	64	61	35	160	Nottingham.
Phillips	89	50	7	146	Oak Grove.
Geo. English	51	62	10	123	Nottingham.
Harry English	65	32	..	97	Nottingham.
Elliott	54	13	22	89	Locksley.
McKnight	20	21	7	48	Killbuck.
Ladies.					
	30 yds.	40 yds.	50 yds.	Total.

Oak Grove	328	145	111	584	

ARROWSMITH.

THE SECOND ANNUAL OHIO STATE ARCHERY TOURNAMENT.

[Our Special Report.]

CINCINNATI, OHIO, 1 Sept., 1880.

The second annual meet of the archers of Ohio took place at the Zoölogical Gardens on the 25th, 26th, and 27th of August. The weather was against the highest enjoyment of out-door sports that week, being the hottest one known here this season, and two afternoons the shooting was interrupted by hard showers. Neither the rain nor the heat, however, could overcome the enthusiasm of the eager archers, and out of 84 entries the night before the tournament began, 75 shot every arrow called for by the programme, and about 50 arranged an impromptu shoot at the close of the third day, and put in about 60 arrows more.

There were 31 ladies and 53 gentlemen entered to compete for prizes, representing 13 clubs, with an aggregate membership of over 300.

Unfortunately, the nature of the grounds did not admit of shooting at double ends, — undoubtedly the best way to conduct a tournament, — and the shots were heralded by colored signals, to the no small confusion of scores. The ladies were stationed at three targets and the gentlemen used seven. Six large tents and awnings protected the archers, except when discharging their arrows; but the sun was so bright and hot that the mot by one clever lady in describing them as "broiled archers on target" was as good a shot as was made. The hot weather noticeably affected the scoring for the first two days. The last day was more reasonably cool, and all had become somewhat inured to the heat, and the scoring by some of the teams was very good indeed at the 60-yard range.

The interest centred the first day in the contest for the State championship medals, at the Double Columbia Round for the ladies and Double American for the gentlemen. There were many hopeful of gaining the prizes at the start; but with the ladies it soon settled down to a close and steady contest between Miss Florence Morrison, the winner of the medal at last year's tournament, and Miss Brownie Medary, who only commenced shooting in May of this season. Their morning shooting was so even and fine as to be really exciting. At the 30-yard range they were a tie — 131; at the 40-yard range, Miss Morrison, by very steady scoring, gained 19 points; but at the 50 yards Miss Medary, by a score that has never been equalled in this country by any lady at a public shoot, at that range, — 20 hits and 98, — reduced her rival's lead to only 4 points. Neither of the ladies shot quite so brilliantly in the afternoon, being fatigued and depressed by the almost unbearable heat, and Miss Morrison came out the winner by 41 points, with Miss Jennie Worthington a very close third, — only 18 points behind Miss Medary. Miss B. Medary and Miss Morrison did some more fine scoring on the afternoon of the last day with 24 arrows at 60 yards, Miss B. Medary coming to the front with a score of 54, and Miss Morrison on a second round, same arrows and distance for an impromptu shoot, for a special prize, making the remarkably fine score of 68, winding up with a 9, 7, and 5 on her last end of three arrows. Great interest was shown by all in Mr. Will H. Thompson, who was present all the time and made hosts of new admirers and friends by his genial, quiet manner and kindly word for all. His scoring was in the nature of a disappointment to himself as well as many of the expectant ones who were hoping to see some of his remarkable shooting. His York round was away below his average; but he shot as well as he knew how, and couldn't account for the falling off any more than many another good archer who has been disappointed in his scores.

Col. Williams' shooting was a feature of this day's work, the more noticeable when it is stated that previous to this he had only shot the York Round twelve times. But Messrs. Gray and Upson pushed very close for second and third places, and

neither of them had ever shot the 80 and 100 yard range but twice before essaying it here; and Mr. Gray's score of 32-146, with his 48 arrows at 80 yards, was a finer exhibition of good shooting than has been seen at any public meeting in this country yet. Mr. Peddinghaus led the score at 80 yards at the Buffalo meet with 30-140, and it was considered very good. There were nine of our gentlemen who passed two hundred, as against thirteen at the Buffalo meeting, and most of them, excepting the Messrs. Devol, had never shot a dozen York Rounds all together. This was considered an ample justification by the committee for their action in putting the York Round down to be shot, the opposition to it being quite stormy in some quarters.

Only two of the clubs of our State Association, the Toledos and Marietas, belong now to the National; but it was the generally expressed opinion that several of the leading clubs would join this fall and be present next summer to measure skill with some of the older brothers in the sport. Already quite a series of matches have been arranged among the clubs hereabouts for further drill in public shooting, one of the weaker clubs taking the lead in this activity in the hope of bracing up its nerve and acquiring some needed skill.

The following are the scores for all the shooting for prizes except the ladies' scores at the handicaps on the second day, which were up to a very good average and are omitted only on account of the necessity of keeping within space.

Ladies.

Double Columbia Round, 25th August, for championess medal and special prizes: single round in morning, score in upper line; and single round in afternoon, score in lower line, 24 arrows at each distance.

THE COLUMBIA BICYCLE.

The accompanying cuts represent our SPECIAL COLUMBIA, and our regular Columbia, which we have been selling for the past two years, in its new and improved form, which we now call the STANDARD COLUMBIA.

The SPECIAL is designed for those wanting a light Machine, for either road-riding or racing.

It is of the finest finish, and fitted with the most approved Ball-bearings, and other improvements of our own design, some of which have never before appeared on any Bicycle, and we do not hesitate to say that it is the handsomest and best-finished Bicycle ever made in any country.

SPECIAL COLUMBIA.

STANDARD COLUMBIA.

THE STANDARD, we claim to be the most durable Bicycle now in use, and beginners, and those who are obliged to ride on rough roads, will find that it will stand almost any amount of rough usage without being injured; it is also a finely finished and very handsome Bicycle.

For further particulars, send three-cent Stamp for Catalogue and Price List, containing full information, to
