AN INCIDENT OF TORONTO BAY.

It was in the winter of eighty-four,
That several wheelmen, five or more,
Determined one afternoon to go
On the frozen Bay through the crunching
snow.

They were, for their history must surely be told,
The only Wandering bicyclists bold
Who had essayed o'er its surface to run,
They were mounted, and now the fun is begun.

They soon struck Ned Hanlan's where they viewed the bleak scene,
But one on a nickelled, ball bearing machine
Started back, leaving them like a gleam or a ray
Of the lightning that glints under Zenus' great sway.

Then came an ice-boat from the town,
As bird of prey comes swooping down,
Poor S. was sitting as usual upright,
And turned around in a terrible fright.

This sort of goose chase he did not like,
For the ice-boat made a bee-line for his bike
So he put on full steam but missing his pedal
The infernal machine caught him in the middle.

S. fell on the boat which dashed o'er the bay,
And bore his wrecked bike in triumph away,
It caught on the prow, so they lifted it in,
He groaned as, in slang terms, he thought of his tin.

They soon reached the wharf from which they has started,
And from which he wished he never had parted
And now as they lifted him out of the boat
They found his shirt torn, as also his coat.

They took him straight home while he solely said
"Into riding on ice be never misled,
See me as I lie here in agonies real,
A victim to riding on ice on a wheel."

—[Egus]

BICYCLING ON THE ICE.

Canadian Wheel notes sometimes attain a wide circulation.

The folowing paragraph which appeared in the Toronto *Mail* some time ago, was clipped from a New Orleans paper where ice in large quantities is probably seldom experienced :

"A party of the Wanderers' Club, Toronto, consisting of Messrs George, Foster, Stephens, Carlyle, Hara, Rogers' Townsend, and Thompson, met at the foot of Jarvis street Saturday afternoon, February 23, for a run out on the bay. At about 3:20 a start was made on the ice, there being about an inch of snow covering it, and, to the surprise of the party, it was found as good wheeling as could be expected on the best of gravel roads. No accidents or falls of any kind were experienced on the trip over to Hanlan's, which place was reached in about twenty minutes. After stocking machines on the frozen sands, a tour was made out on the lake shore and back. Mounting again, a start was made for the city, the party getting separated owing

to the desire on the part of some of the fast riders to show their speed. Mr Stephens, who was proceeding leisurely along, was overtaken by an ice boat, which threw him off his machine into the boat. His machine was caught by one of the skates and was smashed into several pieces. Mr. Stephens had a very narrow escape himself, and had it not been that he fell into the boat, perhaps the Club would have had to carry Mr. S. home instead of an armful of broken bicycle which was carried to town. No other accident occurred, and the party felt satisfied with making the first club run of the season, and on ice, too."

ED CANADIAN WHEELMAN:

DEAR SIR.—It was with much pleasure that I read the views of several correspondents in your last issue, upon the letter of mine which appeared in the *Wheel* of January 11th in regard to the amalgamation of the two representative bicycle associations of Canada and the United States.

When my contribution was penned I had little idea that its contents would ever be discussed, but now that it has been brought before your readers, I trust that you will allow one who has had experience in both countries to express his views.

In advocating amalgamation, or rather, I should say, affiliation of the C.W.A. with the L.A.W., I have not lost sight of the fact that, as young Canadians, we should not relinquish our national feeling by taking a secondary place, as the Sporting Editor of the *Mail* would seem to imply such a union might give rise to. Always, then, with the idea of Canadian interests first, let me state the case as I understand it. Here, side by side, are existing two separate organizations with almost identical rules, regulations, etc., and presenting in both countries advantages to wheelmen who may be traversing the highways of each, except that no Canadian wheelman, unless he is a member of the L.A.W., has any right to the privileges of that society while in the States except those due by civility, and the same applies to American (or I should say, Yankee, for why should we relinquish our right to the title?) bicyclists in the Dominion. Why, then, may not some arrangement be made whereby members of the C.W.A. may be also members of the League and *vice versa*, and then one uniform standard of track measurement, racing rules and constitution could be determined upon and such a case as is now happening could not take place. This case is that of an expelled League member making application for C.W.A. membership. Surely this fact must call for some notice even in regard to the *status* of an amateur. If anything is to be done in the way of affiliation, surely now is the time for agitation; and it appears to me that the matter cannot be too fully discussed in order that a thoroughly systematic basis of union might be agreed upon.

Every year the Canadian roads are wheeled over by a constantly increasing number of bicyclists; and such amalgamation or affiliation of Associations, besides forming a uniform standard of rules, would also tend to strengthen and increase the interests which wheelmen naturally have with one another. That some arrangements may be agreed and finally decided upon ere many months have passed is my sincere wish. SQUIBBS.

The new club rooms of the Toronto Bicycle Club are situated at 10 Adelaide St. East, just one block from the Post Office. Visiting bicyclists will be heartily welcomed.

Handle Bar Straighteners. Every Bicyclist should have one; it saves five times the cost in one season. Price \$1.00.

WM. PAYNE, London.

Yours truly,
Kingston, March 12th. HEADLIGHT.

Advertising Rates on Application.

W. KINGSLEY EVANS, - Editor.
J. B. DIGNAM, - Business Manager.

A CORRECTION.

Whereas an impression has got abroad that this paper is published under the auspices of the bicycle clubs of London, Ont., we wish to state that such is not the case. The CANADIAN WHEELMAN is published independent of all bicycle clubs, both in this city and out, and is the sole property of the publishers, W. Kingsley Evans and J. B. Dignam.

C.W.A. POINTS.

We unwittingly did a wrong in our last issue to the C.W.A. officials in London and Montreal. Just after the paragraph we refer to had been written, but before the publication of our February number, the Secretary received road reports from both of these cities. Consul Muirhead, of London, sent in several very good reports on the roads in this neighborhood, and in addition he has done good service in the way of obtaining advertisements for the Guide Book.

From the tenor of what Secretary Donly writes us, we are led to think that he has fallen in love with Chief Consul Tibbs. That gentleman has been working nobly for the Association. He appointed his consuls for the city, as given in our last issue, and then went to work with them in giving the roads in his District. He has been engaged for some time in mission work, which has obtained for the C.W.A. a footing in the City of Quebec which promises to grow to the entire Club in the immediate future. More power to Mr. Tibbs' elbow, we say. Would that there were more like him.

We must congratulate the C.W.A. on the very evident prosperity which is now attending it. In this issue there a large number of applications for membership—a goodly addition, indeed, for the month of March, with snow lying many inches deep on the ground, all nature still fast asleep in the arms of John Frost, and the majority of wheels still wrapped in flannel in the lumber room. In the words of its own appropriate motto, it grows a *pas de geant*.

Our readers, many of whom are doubtless anxiously awaiting the publication of the Guide Book, will be pleased to learn that

the first pages of it are now in the hands of the printer and that nearly all the data for its completion are in the possession of the editors. It is expected that it will be ready for distribution the last of April or beginning of May.

Article XV. of the By-laws of the C.W.A. says that "Between the first and tenth days of April in each year the Secretary shall send to each member of the Association a ballot paper for representatives and chief consuls, on which shall be printed the names of any nominees proposed and seconded by two members of the District, before the first day of April. It will, by this, be seen that only a short time now has to elapse until the time for nominations will be closed. Secretaries of clubs will do well to bestir themselves in this matter and have their clubs pick out their nominees at once. It is earnestly to be hoped that no person will be nominated who will not, if elected, be enthusiastic in the promotion of the interests of the C.W.A. Nominations must, of course, be sent to the Secretary.

CROWDED OUT.

The following very interesting communications are unavoidably crowded out of this issue, but will appear in our April number: An article on "The Niagara to Boston tour;" A complete sketch of "X M. on a Bi." by Karl Kron, and club letters from the Toronto Bicycle Club, the Ottawa Bicycle Club, and the Wanderers.

We are pleased to announce that the CANADIAN WHEELMAN has been moved into larger quarters in the Edge Block, corner of Richmond and Dundas streets, where we will be pleased to welcome all our old friends, who may visit us.

Anyone having copies of our November, 1883, number to spare, will confer a great favor on us by mailing to this office, as our stock of them has accidentally run very low.

The March number of *Outing and the Wheelman* comes out with a charming snow scene for a frontispiece, and a mixture of winter and summer in its contents, is varied as the season. A light tennis sketch, by Arlo Bates, with lively illustrations, has the first place. The Leaves from Mr. Chadbourne's Journal of his etymological studies on a bicycle tour give a solid modicum of science to the number, set off by butterfly pictures. Winter, in its various aspects of beauty and of storm, appears in two essays; and in another one Commodore Jones describes a trip on skates from Hartford to Springfield, done in three hours, with the assistance of one of those swift Norwegian rigs of sails that make every man his own ice-yacht. They seem to carry a man at a splendid pace when the wind and ice are right. Then there are some bicycling poems and excursions, and a yachting sketch. The best fiction in the number is a breezy, out-door story, begun by President Bates,

called The Masq'allonge, and it has one of the best descriptions of a storm in it that we remember, being written by a man who knows what he is writing about. If the character drawing is as good as the description of nature, the story will be a powerful one. The illustrations, however, are not as good as have appeared in this journal before, but *Outing and the Wheelman* has a broad and attractive field, and one that is steadily gaining attention from the public. It is filling it increasingly well.

Anything and Everything.

The annual meeting of the C.W.A. is to be held in Toronto on April 11th.

Out of five prize-winners at the sports and games in the Queen's Ave. Rink, in this city, three were bicyclists.

Although rather late, we must acknowledge the receipt of complimentary tickets for the Belleville Bi. Club Concert, and exceedingly regret that the great distance prevented us from accepting their kind invitation. The concert, of which an account is given elsewhere, was a grand success, and we hope it may not be the last this Club may enjoy.

It is rumored that a St. Thomas young lady has taken kindly to the bicycle and has learned to ride it. It is also rumored that she will make her *debut* at the big tournament to be held in London on May the 24th, but maybe it is only rumor.

A TOKEN OF ESTEEM.

The members of the Montreal Bicycle Club, which has the proud honor of being the second oldest club on the continent, and of including within its ranks the amateur champion of Canada, held a meeting last evening in the Montreal Gymnasium, Mansfield street. The popular President, Mr. H. S. Tibbs, occupied the chair, and there was a very large attendance of members. After some fifteen new members had been proposed and some other routine business transacted, the President, in a few well-chosen remarks, on behalf of the Club, presented Mr. W. G. Ross, the amateur champion of Canada, with a magnificent Rudge riding machine as a mark of the high appreciation in which he is held by his fellow-members. Mr. Ross feelingly returned thanks, and in the course of his remarks expressed his intention of taking part in the annual races of the Canadian Wheelman's Association, which takes place at Toronto on the 1st of July. He also intended going to Springfield, Mass., in the fall, when he will compete with some of the crack Americau riders. The Club is justly proud of Mr. Ross, and there is no doubt but that he will give a brilliant account of himself during the coming season. The sixth annual meeting of the Club will take place on the 10th of April, when very satisfactory reports will be presented and arrangements made for the approaching season.—[Montreal Gazette.]

Canadian Wheelmen's Association.

The following is a list of the applications for membership to the C.W.A. received up to date, and which are published in accordance with Article III. of the Association. Objections must be made, to me, within two weeks of this publication; such objections shall be confidential. Every member of the Association should carefully examine the list and report objectionable persons. Secretaries of clubs and candidates will please note if names and addresses are correct, and report errors at once to,

HAL. B. DONLY, Simcoe,
Sec.-Treas. C.W.A.

Applications:

Unattached,—482, W. N. Campbell, Quebec, P. Q.

Toronto Wanderers,—448, A. Thompson, Front street, Toronto.

W. G. Eakins, 184, from Woodstock to Toronto.

Robert Tyson, 130, from Wanderers to Toronto.

H. B. DONLY:

DEAR SIR,—I have made the following appointments for consuls in my District: Guelph, O. Shantz; Ingersoll, W. C. Noxon; Strathroy, W. H. Grant; Kincardine, F. E. Coomb; Stratford, J. B. Moore.

Yours truly,
W. G. EAKINS,
C.C. No. 1 Dist.

H. B. DONLY:

DEAR SIR—I have appointed Mr. W. N. Campbell Consul for the City of Quebec.

Yours truly,
H. S. TIBBS,
C.C. No. 4 Dist.

H. B. DONLY:

DEAR SIR.—Mr. C. W. Tinling having resigned his position as Consul for the City of Hamilton, I have this day appointed Mr. A. E. Domville to fill his place. I have also appointed H. C. Goodman Consul for St. Catharines.

Respectfully yours,
T. H. ROBINSON,

Toronto, March 5th. C.C. No. 2 Dist.

THE C. T. C.

THE Dominion of Canada now forms a separate chief consulship of the 'Cyclists' Touring Club, with Mr. Horace S. Tibbs, of Mansfield Street, Montreal, as chief consul. This will bring a much-needed relief to the United States chief consul, in whose territory Canada was till lately included. Mr. Tibbs, we are informed, will appoint provincial consuls in British Columbia, Manitoba, Ontario, Quebec, Nova Scotia, New Brunswick, and perhaps Newfoundland,—thus covering the entire continent north of the United States from west to east. Mr. Tibbs is a hearty supporter of Mr. Frank Weston's theory that national organizations, such as the L.A.W., the C.W.A., etc., should not confine themselves to the legislative problems which can only be efficiently dealt with by national organizations, but that the touring interests of wheelmen cannot be properly served unless on an international basis, and at the hands of a strong international club. Mr. Tibbs is pleasantly remembered in this city as one of the Montreal visitors to the '81 L.A.W. parade, and being a gentleman of undoubted influence, position, and z' al. as well as one of the "fathers of Canadian bicycling," we shall expect a rapid increase in the membership of the C.T.C. in Canada to follow his appointment.—*Bicycling World*.

PERSONAL.

President Burns, of the F.C.B.C. has gone to New York for a few days.

Mr. J. J. Peake formerly of the Winnipeg Free Press has removed to Calgary, N.W.T.

Mr. Chappell, of the St. Marys Bicycle Club, sang at the harmonica concert lately given in that town.

Messrs. Ducker and Fennessy have been reinstated as members of the League of American Wheelmen.

Mr. Harry Saunders, of the F. C. B. C., who has been for the last six months in Philadelphia, has returned to this city.

Mr. Chas. Garner, formerly an active member of the Forest City Bicycle Club, paid us a short visit on March 5th.

Mr. B. B. Ayers, of the Chicago Bicycle Club is hard at work perfecting arrangements for the 2nd annual Chicago tour.

Mr. W. J. Morley claims the first ride of 1884. As Mr. M. has sent us the date of his ride, we withdraw our claim for first place.

Mr. N. Addison Meyer, of the Forest City Bicycle Club, has accepted a very lucrative situation with C. McCallum, druggist, of this city.

Mr. C. E. Sidey, formerly of the Montreal Bicycle Club, has been re-elected as Captain of the Edinburgh Amateur Bicycle Club, Scotland.

Mr. Frank Morrison, of the Aylmer Bicycle Club, was up in London attending the annual sports and games at the Queen's Avenue Rink.

Mr. A. T. Lane, of Montreal, imported the Rudge racer that was presented to W. G. Ross, of which an account is given in another column.

Mr. Joe Wolfe, 1st Bugler of the Forest City Bicycle Club, won the hurdle race at the recent sports in the Queen's Avenue Rink, London.

Prof. Rolliston, of Englehart's "League Champions," has been arrested and lodged in jail for getting drunk and conducting himself improperly on the streets. Served him right.

Mr. James Hamilton, one of the most active members of the St. Marys Bi. Club, has purchased the hardware business formerly carried on in that town by C. Freeman & Co. We wish him all success in his new venture.

Mr. Wm Payne has invented a very useful and cheap appliance for straightening bent cranks instantaneously and without removing them from the machine. He intends patenting both handle-bar and crank-straightener.

Messrs. Shipley and Kennedy, of this city both prominent bicyclists, and employees of Hobbs, Osborne & Hobbs, were in the building at the time of the explosion, and, we are glad to say, were not injured. We congratulate them on their narrow escape.

News from the Clubs.

To CORRESPONDENTS.—Please make your letters brief and newsy, and then we will not be obliged to crowd out other letters of equal importance.

BELLEVILLE.

DEAR WHEELMAN:

I must apologize to you for not informing and keeping you alive to the workings of the B. Bi. C. The Belleville Bi. Club has gone to a great deal of expense in fitting up their handsome rooms and riding hall (which are at all times open to visiting wheelmen), and in order to strengthen the finances of our flourishing Club a grand bicycle meet and concert was proposed and met the approbation of all. A committee was appointed to make all arrangements for the holding of the meet and concert, and great praise must be given them for the energetic efforts and ultimate success in their undertaking.

The concert took place in the new Opera House, on Thursday, March 6th, under favorable auspices and a good large audience, there being about six hundred persons present. The tableaux given by the Club were admitted by all to be one of the most pleasing features of the evening, and the tableau in which Mr. Thos. Richie, on behalf of H. Corby, Esq., President of the B. Bi. C., presented a very handsome silver cup was decidedly pretty. Too much cannot be said in praise of the singing. The ladies especially sang well, and it would be hardly fair to particularize; but I think it would be an injustice not to mention the singing of Mrs. Wallace, late of London, whose full, rich voice and exquisite rendering of the selections sung by her were applauded to the echo, and received encores, although the Chairman, Mayor Dunaett, requested the audience not to encore. The recitations given by Messrs. Carmichael and Richardson were well received and the rendering by them would compare favorably with some of our best actors on the stage. The recitation (illustrative) in the sign language, given by Prof. S. T. Greene, entitled "The Amateur Bicyclist," was very amusing and received repeated applause. It seems almost necessary to mention every one on the programme, but your space is limited. Hub.

MONTREAL.

En. CANADIAN WHEELMAN:

DEAR SIR,—I have been surprised to read in your late issues, letters advocating the amalgamation of the C.W.A. and L.A.W. Those who were present at the meeting in Toronto in September 1882, called to organize the C.W.A., will remember that I then advocated the formation of a Canadian Division of the L.A.W., but that proposition was unanimously "scouted." My reason for doing so was because I thought, in common with the rest of the Montreal Club, that the wheel had not a sufficiently strong hold in Canada to support such an association. That view has, I think all will admit, been

proved incorrect and the history of the American League has not warranted the abandonment of our own National Body in favor of an alliance with the L.A.W. I think it is time to adopt a distinctive badge for the members of our Association and with that end in view I have had a number of designs made to submit to the proper authorities for their approval.

Messrs. Ross, Lane, Miller, Davis, and myself have sent an order home for a "Centaur" Four-in-hand Tricycle, which will be the first on this continent, I believe.

Messrs. Lane and Hill will ride a Rucker Tandem Bicycle this season.

Charlie Merrill has ordered a Premier Sociable and Bob Darling has purchased a Cheylesmore Double. With these, the American Star and the Sociable that went to Springfield, the Montreal Division will shew considerable variety in the parade in Toronto, 1st. July. The boys are talking about it already, and I fully expect fifty men to accompany us on the trip.

We have lately refurnished and decorated our Club Rooms at an expense of over \$250, and I hope no Western wheelman will visit Montreal without giving us a call. The large oil-finished photograph of the Montreal Club, taken in 1881 before Sidey left us, has just come back from the Boston Exhibition, and once more adorns the walls of our club room. We have started a weekly riding school in our gymnasium hall every Wednesday evening according to our usual custom for several years past at this season, and already several recruits have joined our ranks.

I notice that Canada has recently been erected into a separate division of the Cyclists Touring Club; but I have not heard who has been appointed Chief Consul. I received a letter from a friend in the Old Country, who is on the council, telling me that the names of Messrs. McBride and Webster, of Toronto, had been mentioned and also my own. I should be glad to see the position accorded to Mr. McBride, who is a most enthusiastic wheelman without a doubt and would work hard for the success of anything he undertakes, I am sure.

The CTC does not conflict with national organizations, such as the C.W.A., L.A.W., N.C.U., &c., being of a purely international character and principally designed to assist wheelmen in touring throughout the length and breadth of the rideable world.

By the time this sees the light the presentation to "Billy" Ross will no longer be the secret it is as yet. Several of the boys, desiring to manifest their affection and esteem for "our champion," have imported a "Rudge" racer which is to be presented at a special meeting to be held next Friday evening. The machine has arrived, and everybody has been to Carnival House to inspect it, and it is a beauty without doubt. Jack Low and Fred. Holden have ordered duplicates "on sight."

Our genial Secretary, Jim Miller, who has recently returned from a short business trip west, reports that a host of new racers will be in the field this season (according to Mr. Moodie, of Hamilton,) and that they intend to make Ross look sharp after his laurels. The Ross family are all celebrated in some branch of athletics. Phil. as an oarsman, Jimmy as a snow-shoer, and Billy as a bicyclist, and are as fine a trio of brothers as you will find between here and the Rockies.

Rather more attention will be paid to fancy riding here this season than of late years, I judge, from present indications.

H. S. TBBBS, C.C., Dist. 4.

THE ARIEL TOURING CLUB.

DEAR WHEELMAN:—

"Gentle Annie" can't be far off now and no one will hail her with more delight than the "Ariels." The coming races, tours, and tournaments are the chief topics around our fire nightly, but the all-absorbing one is our intended tour to Montreal, which will take place early in August. Arrangements and details will be down to a fine point in a short time, as our letters of inquiry along the route have been answered promptly and courteously, which speaks well for the eastern cyclists and is fully appreciated by us. Our present plan is train to Toronto, wheel to Montreal and back by boat to Hamilton and train home. Time about ten days. The club motto has now been changed to "Economy is the road to Montreal!"

Our bugle arrived last week and was "officially" brought forth from the box that Mr. C. W. Hutchinson, Springfield, Mass., had buried it in and was most "unofficially" "tooty-to-tooted" by the patient president for one straight hour (it is rumored he would have "tootied" some more if he had not burst the band on his new(?) spring hat, for which he had exchanged a very dilapidated one on his last visit to the barber's) and was duly handed over to the bugler who after emptying out the pint and a-half of saliva, pronounced it a "daisy."

W. G. Ross' Photo (16x20,) presented to us by that gentleman, was the big card in Trebilcock's window the other week. It has been handsomely framed and adds greatly to the appearance of our room.

Considerable excitement was caused the other night by one of our members, (left hand top man in club photo) whose daily bread is earned by representing a wholesale firm of this city, in Waterloo County, bringing up a cake of pure unadulterated Limburger cheese and depositing same in Secretary's desk. That illustrious gentleman having a bad cold "failed to connect," tilted his chair back, and calmly wondered why the boys asked him if he was sure he was quite well and why they edged their chairs near the door. But the Limburger knocked his cold out in the second round, and with a sweet, Christmas-what-is-it expression on his face, announced that a pole cat had got under his desk. Search was immediately instituted and the real cause found and gently assisted out by the club sport (right hand top man in club photo) who thinks it strong enough to knock out Sullivan in half a round. He intends to take it to Toronto on the 1st. July to help to keep the crowd back at the gates.

Our great female impersonator (centre man, bottom row in club group) better known to the London public as "Tilly Muggs," appears for the last time this season in St. Thomas this week, closing a very successful engagement with the Muggs Buggs Company. Tilly made quite a hit this year and was appreciated.

Our "Club masher" (top row, second man from the left) is once more in trouble. A short time ago he received a huge poster advertising another Ingersoll carnival with the short but meaning verse,

"Be sure and come Jimmie,

Or you'll break the heart of Minnie."

As Jimmie was "troubled with the shorts" at that time he didn't attend, and now Minnie, who is visiting here "never speaks as she passes by."

The rest of the Club are in good health, due no doubt to the untiring attentions of our janitor (Lost January 4th, 1884—reward offered for his recovery.)

Yours as ever,
MICKIE.

Mr. John Glen, whose advertisement appears in another column, wishes to call the attention of clubs who may require new uniforms to the fact that he is prepared to furnish them at the lowest cash prices. This is the season of the year when new uniforms are chosen, and before deciding on anything it would be well to get samples and prices from him. Apart from bicycle uniforms he is one of the most fashionable tailors in town, and we can recommend him to anyone wanting a nobby suit. Don't forget his address. West End House, 415 Richmond St.

Bicycles and Sundries F.O.B. Toronto, at catalogue prices.

Bicycles shipped C.O.D., but cash must accompany orders for sundries.

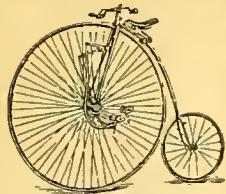

The above machines will be here the first of March, and are all made from material carefully selected, the forks of the S.B.C. are made a little heavier than usual. Without a doubt these Bicycles are bound to supersede any previous importations.

The past three years Singer & Co. have been well posted, and schooled in all the requirements for a first-class Canadian Roadster.

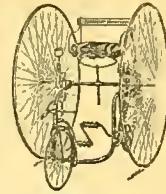

For further particulars see large Catalogue.

• Special Spring List of New and
Second-Hand Machines, ready
end of February.

Montreal, 8th March, 1884
A. T. LANE ESQ., Montreal.

Dear Sir,—With regard to the Special Royal Canadian Bicycle purchased from you, I can but say that I am quite satisfied. It has met all the requirements of a first-class machine. It has been run over the very roughest of Canadian roads and has stood as severe a test as ever a machine could on both road and track.

Yours truly, J. A. MUIRHEAD,
Capt. Montreal Bicycle Club.
(Now Capt. Ariel Bicycle Club, London.)

A. T. LANE, Esq., Montreal.

Dear Sir,—I have much pleasure in stating that the Special Royal Canadian Bicycle I purchased from you this spring has given every satisfaction. I have ridden it the whole of the season over some very rough roads as well as in several races without having to adjust a single nut or bolt, and it has not cost me a cent for repairs.

Yours sincerely, HORACE S. TIBBS,
Pres. Montreal Bicycle Club.

For Sale.

Advertisements under this head, one cent per word each insertion. No advertisement less than twenty-five cents.

FOR SALE—A 60-INCH SPECIAL CLUB, ALL plated including telloes, Ball bearings, all round, pedals included, in first-class condition, \$125. Address—Wm. Payne, London.

A NEW 52-INCH BICYCLE FOR SALE—Ball-bearing Pedals; Balls to both wheels; Chime Bell and Saddle Bag; Tools and "King of the Road" Lamp. Address—Box 52, this office.
